

Kevin, 15, from Hong Kong  
Grade 10

## MY BOARDING EXPERIENCE

The move to ACS international school was a foreign experience for me, as it is the first time any of my family members will be studying abroad. I was worried about how I might not be able to adapt, the numerous pressures and most importantly being separated from my family. Today I stand proud before many to say that I am an ACS boarding student!

When I first stepped foot in the ACS boarding house, I was accompanied by an influx of smiling faces and warm welcomes. I was quickly met with the head of boarding, Mr. Pitcher, followed by many other fellow boarders before me which quickly showed me my surprisingly spacious room and was left with privacy security. I found it really easy to adapt, and so far boarding experience has been great, I feel welcomed and accepted. I am happy to be apart of the ACS family!

In terms of academics, I used to dislike any related math-related lessons. I found them boring and meaningless, but I came to this school and met Mr Browning. He really is a great teacher with the perfect mix of humor and maturity you would expect from a teacher.

I love the extra-curricular activities at ACS Cobham, I have joined many clubs this year. Including STEM, Table Tennis, Medics Club, Map Fundraising Charity, etc.

For life after ACS, I am pursuing a medical or law career and maintaining a fairly high GPA to maximize my university acceptance chance.

ACS has also taught me to be independent and to manage my own life in a responsible manner. The school will not hold your hand throughout your entire stay here, but support is there when needed, which I find to be excellent!
