MY BOARDING EXPERIENCE

ACS is known to have a very good reputation and so my parents and I thought it would be a good choice. The students and teachers are very friendly, and if you have any questions they are always happy to help.

It's a very big campus with wonderful facilities and the environment is lovely.

What I really love about boarding at ACS is that you get to learn from so many different cultures, and how to interact with different people and have respect for different nationalities.

My favourite subject is AP Biology, however, I enjoy all of my classes.

I particularly love music and I am aiming to go to university at Julliard. It's the best music institution in the world. I play both the piano and violin. I am looking to become a professional pianist performing around the world and producing my own work.

I have grown a lot as a person since joining ACS because you meet so many people from so many countries, and learn to respect their differences and cultures.
